A note from Wendy

It was great to see so many of our members at the Mullewa Agricultural Show last weekend! The team loved getting out and about, catching up with familiar faces and meeting plenty of new ones.

Congratulations to Michaela Keeffe, who took home our $500 voucher pack!

We're not done yet. You'll find the GOPP team roaming the Chapman Valley Show this weekend and the Northampton Show next weekend. If you're heading along, keep an eye out for us, say hello and show your GOPP card to score some freebies and go in the draw to win another great prize.

Plus, if you refer a non-member to come and find us at the show, you'll receive a $100 voucher to a GOPP Partner of your choice when their membership application is successful.

We're also pleased to welcome **The Business Social Hire HQ** as our newest GOPP Partner. Located in the heart of Geraldton, Hire HQ offers a flexible space for meetings, workshops and events, with room for up to 20 seated guests or 50 standing. GOPP Members receive 15% off room hire, so be sure to keep them in mind for your next gathering.

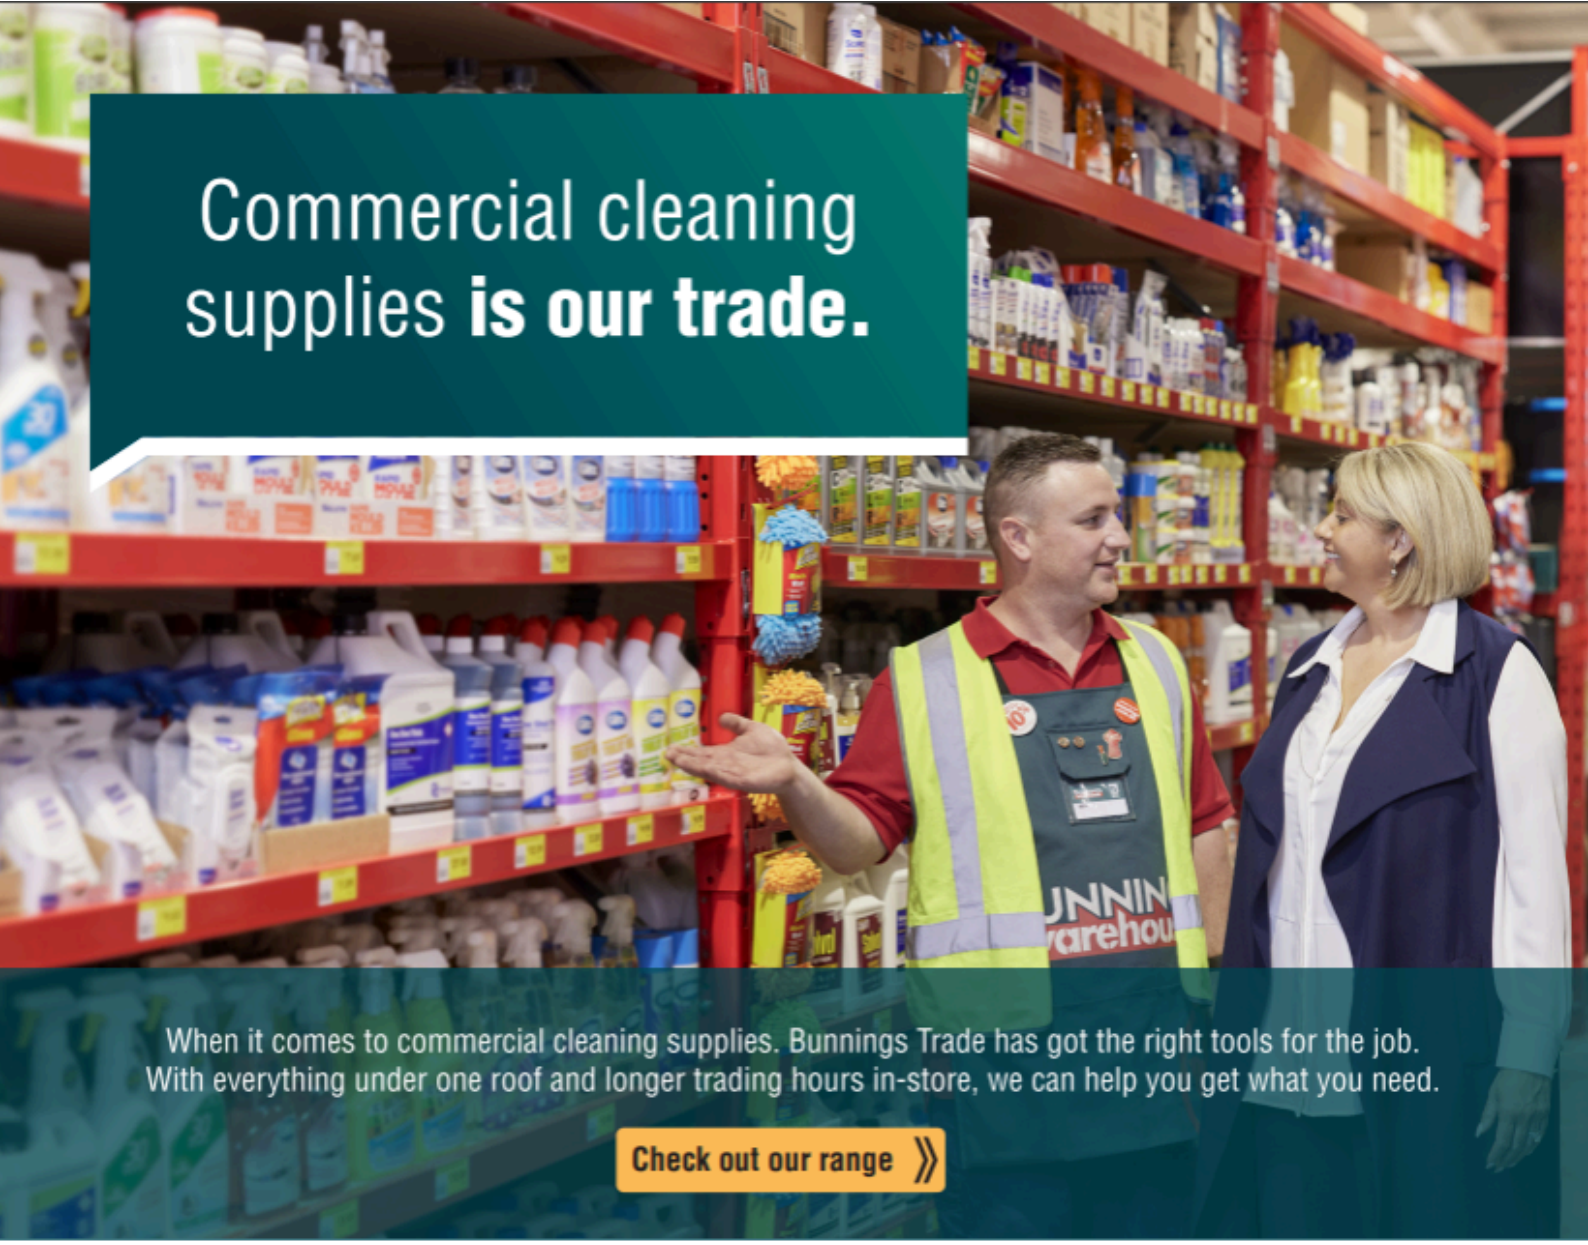

Finally, we're thrilled to be sponsoring the Smokin' Barrel Fest 2026 Closing Hoe-Down Party at Burnt Barrel on Sunday 27 September. It promises to be a fantastic afternoon of live music, great food and plenty of fun to wrap up this year's festival.

Have a lovely start to Spring!

Wendy Norris

From Shy Apprentice to National Finalist: The Isaiah Bell Story

Four years ago, Isaiah Bell walked through our doors as one of A & L Electrical's very first apprentices - quiet, reserved, but ready to learn.

Today, he stands as a FINALIST in the 2026 Master Electricians Australia Excellence Awards - Apprentice of the Year.

One of the top 5 electrical apprentices in all of Australia.

Isaiah didn't just learn the trade. He transformed himself. From that shy young man into a driven professional who shows up every single day committed to being the best version of himself. His diligence, his work ethic, his relentless pursuit of excellence and that's what got him here.

This recognition belongs to Isaiah. But it also reflects what happens when you invest in young talent, create a culture of excellence, and give people the platform to become extraordinary.

To Isaiah: We've watched you grow into an incredible young man and tradesman. This is just the beginning.

To our team: This is what we build together.

To the industry: When you develop apprentices the right way, this is what's possible.

Congratulations, Isaiah Bell. We're proud of you. Australia is watching.

Coates doubles large-capacity generator fleet with significant investment

New mine-spec containerised units give customers access to reliable, scalable power that's easier to transport, deploy and integrate on complex worksites.

Coates is making a significant investment in Australia's power security, expanding its fleet of large, containerised generators (750–1250kVA). The investment will double the size of Coates' large-capacity generator fleet this year, with further investment planned for FY27.

Designed and built to Coates' specifications, the new generators deliver performance and durability in harsh Australian conditions, with key features including:

- Prime electrical rating with overload capacity
- 110% fully bunded integral fuel tanks
- 40°C ambient capability (derated up to 50°C)
- Sound-reduced (most rated 67 dBA or less at 7m)
- Synchronising controllers
- Compatible with B5-B20 biodiesel blends
- Mine-spec construction suitable for mining, heavy industry and remote worksites

The new containerised generators offer a range of customer benefits, including modular design for easy transport, mobilisation and integration into fixed plant, quieter operation, improved fuel efficiency and options for hybrid integration. They also deliver lower operating costs, plug-and-play connectivity and full compliance with Australian Standards.

Need reliable power to keep your operation moving? Contact the local Coates team to find out how they can help keep you powered wherever the job takes you.
